

Eureka Magnifico is built on the Eureka Performance platform, but with a digital display and larger 55mm "Diamond Inside" long-life burrs, and is available in a matte black, red, white, or a stainless steel finish with a chromed metal front.

Magnifico has 2 programmable dose settings that can be stopped and restarted - for a single or double shot dose - that are easily adjusted "on the fly" to give you the exact amount of coffee grounds every time. Settings can be locked at any time, and you can also operate it manually.

Magnifico is compact but features a powerful direct-drive motor, larger long-life 55mm burrs, an adjustable portafilter fork, and micro-metric grind adjustments to dial in the perfect grind setting.

Burrs: 55mm long-life cryogenic steel | **Bean Hopper:** 300g

Finish: black, red, white, chrome or gold + chromed front/top

Height: 35cm/14" | **Width:** 12cm/4.75" | **Depth:** 18cm/7" | **Weight:** 5.5kg/12.5lb
