

## Izzo Alex Leva PID semi-commercial “Leva” espresso machine

**Alex Leva**, with a top-grade polished stainless-steel body, is a classic manual “piston” machine that runs completely silent since it requires no pump! When ready, simply pull the lever forward till it locks in the down position; after this pre-infusion step, maneuver the lever upwards until the industrial coil springs inside the brew group take over – the machine will slowly and silently deliver a rich, hot espresso shot.

Brew your shots while simultaneously accessing powerful, endless steam and boiling water from its massive 5 litre boiler, for maximum speed and efficiency. The digital P.I.D. allows you to adjust steam pressure and brew temperature to your liking, while a hidden knob allows you to heat your cups with a burst of steam into the cup-warming area on top!

Included Package: two complete 54mm portafilters (one single one double), professional hand tamper, 4 different steam tips for the cool-touch steam wand to help you make perfect micro-foam, custom dust cover, direct waterline (required) & drain connection (optional), an in-line water softening kit, full installation, and on-site training & warranty (some conditions apply).

**Height:** 53cm / 21”

**Lever Height:** 79cm / 31”

**Width:** 36cm / 14”

**Depth:** 48cm / 17.5”

**Weight:** 35kg / 78lb

**Boiler:** 5 litre copper & brass

**Reservoir:** direct water only
